Department of Justice;

My family along with many friends, beg you to vote in favor of Microsoft. We admire Microsoft for everything they stand for. The courts and their completion may see Mr. Bill Gates as a Butt head, but we the people view him as a Great businessperson, who created great, jobs, serves not only his community but contributes large amounts of money to many great causes throughout the world.

Again, we sincerely beg the courts not to destroy Microsoft,one of the greatest corporations in America today.

Shuryl A. Potter
